

St Michael's Church is becoming an 'Eco Church'! This means that the church, and everyone involved in it, is doing all that they can to help the environment and to stop climate change.

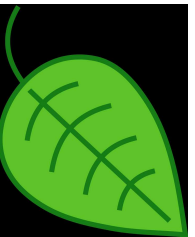

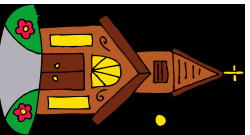

We would like YOU to design and colour this 'Eco Church' logo to show that St Michael's, Brancote, is eco-friendly.

Think about:

- how to make it eye-catching
- which colours to use
- what pictures you could add to show the church **and** environment ideas (you must show both)

Important:

- > All designs will be displayed in the church to help show our eco status.
- > Three winners will receive a cool animal projector torch!
- > Please send your Eco Church design in to St Michael's Church before the deadline of **Wednesday 28th July**.

'Eco Church' Competition KS1

Please colour this and add any details to make it show the church and the environment.
