

St Michael's Church is becoming an 'Eco Church!' This means that the church, and everyone involved in it, is doing all that they can to help the environment and to stop climate change.

'Eco Church' Logo Competition KS2

We would like YOU to design the logo for 'Eco Church' to show that St Michael's, Bramcote, is eco-friendly.

Think about:

- how to make it eye-catching
- whether to use bright/bold colours or traditional/refined colours
- what you use to show the church / environment idea - can you combine these two things in one image? Or have 2 joined images?
- how you will make it easily recognised.

Important:

- > Keep it simple but effective (look at some other logos for inspiration)
- > the winner will have their logo used by the church. They will also receive a £10 Waterstones voucher. The runner up will also receive a prize.
- > Please send your logo design in to St Michael's Church before the deadline of **Wednesday 28th July**.

Draw your logo here:

Draw it as big as you can in this space, and use the words Eco Church within the logo.
